

**aunts & uncles**

### **The Brand:**

Since 2004 aunts&uncles designs honest products with own character. Founded by Angelika and Sven Scheurer, the family-run business is attracted by the symbiosis of tradition and modernity which is reflected in the timeless design of their products.

Based in Germany's Lower Rhine, aunts&uncles passionately designs bags with a vintage style made from exceptional leather. The rugged, original leather as well as the authentic and sometimes stubborn style is the secret behind aunts&uncles, giving every bag a casual vintage look with a drop of nostalgia.

There is simply no other brand in Europe that makes bags quite like aunts&uncles.

### **The Bags:**

The team is dedicated to creating high-quality bags and accessories at fair prices – both fair for the end-user and fair for the manufacturer. With these traditional values aunts&uncles aims to develop robust, functional bags made from quality material.

The Good Old Friends collection highlights the company's very best qualities. A collection of robust, beautiful and functional leather bags made from outstanding material. Whether a shoulder bag, a handbag or a holdall – these timeless leather designs last a lifetime of work and adventure.

### **The Background:**

Everything the company does, adheres to its traditional values – ensuring its interaction with the environment and society leaves only a positive impact. The bags are produced manually in India by several medium-sized manufacturers with the support of modern machines. Humane working atmosphere, social competence and fair payment are fundamental concerns for aunts&uncles, they only work with carefully selected factories, which are capable of meeting their high standards.

Each creation has the distinctive character of high quality leather, almost entirely vegetable tanned and strictly dyed with colours that comply with the AZO regulations. The leather is free of CFC, PCB, PCP and formaldehyde, and complies with the regulations for chrome VI.

At the heart of aunts&uncles are family values – from the design, right through to the finish. Each bag delivers on a promise – quality that will see you through a lifetime of adventure, in the comfort that you know where it came from.

Welcome to the family.
